## What data is available to researchers?

The following list provides information on data available to researchers and outside organizations. The datasets are produced annually and include individual-level records. Each data set described below contains a separate file for each school year, unless otherwise noted below. Please note that request for any of the data listed below will require detailed justification from the requestor. If justification is not satisfactory the program team may reject the request for data.

- 1. Student Demographics dataset contains student-level demographic and enrollment records for students enrolled at any point between October 31st and June 30th. To learn more about this dataset and see what's included, check out the full Documentation available here(Open external link).
- Student Enrollment and Demographics Audited Register \* dataset contains student-level demographic records of all active students as of the Audited Register date (typically October 31st of the school year). To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 3. Student Enrollment Transactions (Admits & Discharges) dataset contains student-transaction level records documenting each time a student is admitted or discharged from a NYC DOE school.
- 4. Student Attendance (Annual) dataset contains students' school-level records of the number of days a student has been present and absent for a given month/school year. To learn more about this dataset and see what's included, check out the full Documentation available <a href="https://example.com/here/open-external-link">here(Open external-link)</a>.
- 5. Student New York State Graduation Report dataset contains the student-level records of graduation outcomes. To learn more about this dataset and see what's included, check out the full Documentation available here(Open external link).
- 6. Student New York State Regents Exam Results- dataset contains student-level exam results from the New York State Regents exams, including all administrations: January, June, and August. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 7. Student New York State Grade 3-8 Mathematics & English Language Arts (ELA) Exam Results- dataset contains student-level exam results of the New York State Math & ELA Assessments administered to students in grades 3 through To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).

- 8. Student New York State Science Exam Results dataset contains student-level exam results of the New York State Science Assessment administered to students in grades 4 & 8. To learn more about this dataset and see what's included, check out the full Documentation available <a href="https://example.com/here/">here(Open external link)</a>.
- 9. Student New York State Identification Test for English Language Learners (NYSITELL) Results- dataset contains student-level exam results from the NYSITELL, administered to students to determine eligibility for English Language Learner (ELL) instructional services. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 10. Student New York State English as a Second Language Achievement Test (NYSESLAT) Results - dataset contains student-level exam results from the NYSESLAT, administered to students in order to be placed out of ELL status. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a>(Open external link).
- 11. Student SAT Results- dataset contains student-exam level exam results from the SAT, administered by the College Board. To learn more about this dataset and see what's included, check out the full Documentation available <a href="https://example.com/here/">here(Open external link)</a>.
- 12. Student PSAT Results dataset contains student-exam level exam results from the PSAT, administered by the College Board.
- 13. Student Advanced Placement (AP) Exam Results dataset contains student-exam level exam results from the AP, administered by the College Board. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 14. Student Specialized High School Admissions Test (SHSAT) \* dataset contains student-level exam results of 8th and 9th grades students who took the test and were admitted to New York City's eight specialized high schools (not including Fiorello H. LaGuardia High School of Music & Art and Performing Arts).
- 15. Student High School Credit Accumulation dataset contains records of all high school credits earned by students within a school year (this is not course level). To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 16. Student High School Grade Point Average (GPA) dataset contains student-level records including overall GPA as well as GPA by subject. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a>(Open external link).
- 17. Student Course Enrollment and Grades dataset contains records of all credit-bearing courses in which students received a final grade. To learn more about this dataset and

- see what's included, check out the full Documentation available <a href="here">here</a>(Open external link).
- 18. Student Postsecondary Enrollment dataset contains student-level records of postsecondary enrollment, including whether a student enrolled in a two- or four-year college, vocational program, or public service within six months of their scheduled graduation date. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a>(Open external link).
- 19. Student Postsecondary Degree Attainment dataset contains student-level records on the total number and types of college degrees earned by students within six years of their on-time four-year high school graduation date. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a>(Open external link).
- 20. Student College Readiness dataset contains student-level records for students in the 4year graduation cohort of a school year meeting College Ready standards in English and mathematics.
- 21. Teacher Pedagogue \* dataset contains staff-level records of educators and school-based staff who work closely with students.
- 22. Student to Teacher Course Linkage \* dataset contains student-course level records that match a course's primary teacher to each student enrolled in the course. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 23. Student Admissions Data: 3Kindergarten(3K) to PreKindergarten(PreK) dataset contains student-level records of 3K and PreK school applications and placements.
- 24. Student Admissions Data: Kindergarten \* dataset contains student-level records of kindergarten applications and placements.
- 25. Student Admissions Data: Elementary Schools \* dataset contains student-level records of elementary school applications and placements.
- 26. Student Admissions Data: Middle Schools \* dataset contains student-level records of middle school applications and placements.
- 27. Student Admissions Data: High Schools dataset contains student-level records of high school applications and placements.
- 28. Student Admission Data: Gifted and Talented (G&T) dataset contains student-level records of students who registered to take the G&T test.
- 29. Pre-Kindergarten (Pre-K) Enrollment dataset contains Pre-K site information along with student-level records of students that were enrolled in Pre-K for a school year.
- 30. Student Overage/Under-Credited (OA/UC) dataset contains student-level records of students determined to be overage and under-credited.

- 31. Student Fitnessgram Results dataset contains student-level physical fitness assessment data. To learn more about this dataset and see what's included, check out the full Documentation available <a href="https://example.com/here/">here(Open external link)</a>.
- 32. School Zoned District Borough Number (DBN) dataset contains student-level records of students' elementary, middle, and high school zone of residence. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).
- 33. School Location Code Generation and Management System (LCGMS) dataset contains school-level information on school buildings and locations. To learn more about this dataset and see what's included, check out the full Documentation available <a href="here">here</a> (Open external link).

For publicly available, please see our website or NYC open data.
