Framework for Great Schools

The Framework for Great Schools includes six elements—Rigorous Instruction, Collaborative Teachers, Supportive Environment, Effective School Leadership, Strong Family-Community Ties, and Trust—that drive student achievement and school improvement.

The School Quality Reports share information on how schools are performing on these six elements, based on data from Quality Reviews, the NYC School Survey, chronic absenteeism, and movement of students with disabilities to less restrictive environments. This Technical Guide describes the methodology used to convert this data into Framework scores and ratings.

Framework Report Sections

The School Quality Reports share ratings and information on how schools are performing on the six Framework elements.

Rigorous Instruction: This section looks at whether curriculum and instruction are designed to engage students, foster critical-thinking skills, and are aligned to the Common Core. This section uses data from the Quality Review and the NYC School Survey.

Collaborative Teachers: This section looks at whether teachers participate in opportunities to develop, grow, and contribute to the continuous improvement of the school community. This section uses data from the Quality Review and the NYC School Survey.

Supportive Environment: This section looks at whether the school establishes a culture where students feel safe, challenged to grow, and supported to meet high expectations. This section uses data from the Quality Review, the NYC School Survey, chronic absenteeism (or average change in student attendance, for some school types), and movement of students with disabilities to less restrictive environments.

Effective School Leadership: This section looks at whether school leadership inspires the school community with a clear instructional vision and effectively distributes leadership to realize this vision. This section uses data from the NYC School Survey and the Quality Review.

Strong Family-Community Ties: This section looks at whether the school forms effective partnerships with families to improve the school. This section uses data from the NYC School Survey and the Quality Review.
**Trust:** This section looks at whether relationships between administrators, educators, students, and families are based on trust and respect. This section uses data from the NYC School Survey.

**Framework Scores and Ratings**

Framework scores are on a 1.00 – 4.99 scale. Framework element ratings are on a four-level scale. In the School Quality Guide, the four levels are called Exceeding Target, Meeting Target, Approaching Target, and Not Meeting Target. In the School Quality Snapshots, the four levels are called Excellent, Good, Fair, and Needs Improvement, and are presented as 1-4 bars in a graphic.

Example of a 4-bar rating in Rigorous Instruction:

![Rigorous Instruction Rating](image)

Framework ratings are calculated for early childhood schools, elementary schools, middle schools, K-8 schools, secondary schools, high schools, K-12 schools, transfer high schools, charter schools, District 75 schools, and YABC programs. They are not produced for District 79 programs and schools that are closing in June 2019.

**Additional Notes**

- In the June 2019 release of the 2018-19 Framework results, the Framework element rating for Supportive Environment is N/A for all schools because we do not yet have 2018-19 data for chronic absenteeism and movement of students with disabilities to less restrictive environments. The Supportive Environment rating, incorporating those metrics, will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

- In the June 2019 release of the 2018-19 Framework results, the Framework element ratings for all elements except Trust are N/A for schools with pending 2018-19 Quality Review Reports (that were not finalized by May 21, 2019) because the finalized Quality Review results are needed to calculate those ratings. The Framework ratings for those schools, incorporating their Quality Review results, will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

Quality Review

The Framework ratings incorporate results from the school’s most recent Quality Review on the following indicators:

1.1 Rigorous, engaging, and coherent curricula aligned to the Common Core Learning Standards.
1.2 Research-based, effective instruction that yields high quality student work.
1.3 Aligned resource use to support instructional goals that meet students’ needs.
1.4 Structures for a positive learning environment, inclusive culture, and student success.
2.2 Curricula-aligned assessment practices that inform instruction.
3.1 School-level theory of action and goals shared by the school community.
3.4 A culture of learning that communicates and supports high expectations.
4.1 Support and evaluation of teachers through the Danielson Framework and analysis of learning outcomes.
4.2 Teacher teams engaged in collaborative practice using the inquiry approach to improve classroom practice.
5.1 Regularly evaluate school-level decisions with a focus on the Common Core Learning Standards.

Schools that received Quality Reviews in 2016-17 or later have ratings on all ten indicators. Schools that received their latest Quality Review in 2015-16 or earlier have ratings on five indicators: 1.1, 1.2, 2.2, 3.4, and 4.2.

In the June 2019 release of 2018-19 Framework results, schools that received a Quality Review during 2018-19 but did not have a finalized Quality Review Report by May 21, 2019 will receive N/A on all Framework element ratings except Trust. The other Framework ratings for those schools, incorporating their Quality Review results, will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

For additional information about the Quality Review, please visit https://www.schools.nyc.gov/about-us/reports/school-quality/quality-review

NYC School Survey

The NYC School Survey is administered annually to students in grades 6-12, and to parents and teachers of students in all grades (3-K through 12). The survey gathers information from school communities on the six elements of the Framework for Great Schools.

The survey is organized as groups of questions relating to a measure, and groups of measures relating to an element.

- Example: The element of Rigorous Instruction is composed of five measures: Common Core Shifts in Literacy, Common Core Shifts in Math, Course Clarity, Quality of Student Discussion, and Academic Press. The NYC School Survey includes groups of questions related to each of those measures.

See Appendix B for a detailed explanation of the element-measure-question survey structure.

▶ Question-Level Percent Positive

For each survey question, we calculate the percentage of "positive" responses (excluding "I don’t know" or missing responses from the denominator).

Positive responses are defined as those in the favorable half of response options (i.e., out of four possible response options, the two most favorable options are treated as positive responses).

▶ Measure-Level Percent Positive

For each measure, we calculate the percentage of positive responses. This value is the average of the percent positives of all the questions within the measure.

▶ Element-Level Percent Positive

For each element, we calculate the percentage of positive responses. This value is not simply the straight average of the percent positives of all the questions within the element. Instead, this value is the average of the measure-level percent positives for
all the measures within the element. (For example, the percent positive for the
Rigorous Instruction element is the average of the percent positives on its five
measures: Common Core Shifts in Literacy, Common Core Shifts in Math, Course
Clarity, Quality of Student Discussion, and Academic Press.)

For additional information about the survey, please visit
or email surveys@schools.nyc.gov

**Other Metrics**

► **Percentage of Students with Attendance Rates of 90% or Higher (Early Childhood, Elementary, Middle, K-8, High Schools)**

This metric shows the percentage of students at the school with attendance rates of
90% or higher. Because chronic absenteeism is defined as students with attendance
rates below 90%, this metric shows the percentage of students who are not
chronically absent.

Each student’s attendance rate is calculated by adding together the total number of
days when the student was present and dividing it by the total number of days on
register for the student at the school (the sum of the days when the student was
present and the days when the student was absent). If a student’s total number of
days on register at the school is less than 20, the student’s attendance rate is treated
as N/A and the student does not contribute to the school’s metric.

Pre-K attendance is excluded for any school that has a Pre-K grade. For K-12
schools, this metric is calculated separately for the K-8 grades and 9-12 grades.
Similarly, for 6-12 schools, the metric is calculated separately for the 6-8 grades and
the 9-12 grades.

This metric will not be available in the June 2019 release of 2018-19 Framework
results. It will be included in the Fall 2019 release of the 2018-19 School Quality
Reports.

► **Average Change in Student Attendance (Transfer High
Schools, YABC Programs, District 75 Schools)**

This metric shows the average change in attendance rate for the students at the
school under evaluation. This measure looks at two pieces of information for each
student:

- Student’s attendance rate for 2017-18. (This student attendance rate is the
  aggregate rate from all New York City public school(s) the student attended
  in 2017-18.)

- Student’s attendance rate for 2018-19. (This student attendance rate
  includes only the rate at the school under evaluation)

To be included in this measure, a student must have an attendance rate for the 2017-
18 school year with a minimum total of 40 days on register at any New York City
school(s) during that year. In addition, during the 2018-19 school year, the student
must have been on the register of the school under evaluation for at least 40 days.
The average change in the student attendance rate for each school is calculated by taking the average of change in attendance rate from 2017-18 to 2018-19 for all students at the school under evaluation. (This metric is expressed in percentage points.)

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

► **Movement of Students with Disabilities to Less Restrictive Environments (Non-District 75 Schools)**

This measure recognizes schools that educate students with disabilities in the least restrictive environment that is educationally appropriate. Students with an IEP during any of the last four school years are sorted into four tiers based on primary program recommendations and the amount of time spent with general education peers, as of the end of September of each year. The denominator for this measure includes all K-8 students with tier two or higher in any of the years 2017-18, 2016-17, or 2015-16. Students who are newly certified in 2018-19 are excluded.

The numerator contribution of each student is the highest tier number from the last four school years minus the tier number for 2018-19. This number can range from zero (for students who are in their highest tier in 2018-19) to three (for students who were previously in Tier Four and are in Tier One in 2018-19). Negative numbers are not possible; students who move to a more restrictive environment count the same as if they had always been in that setting.

**Tier One – General education**
- No IEP, or
- IEP with a recommendation of related services only

**Tier Two – 80-100% of time with general education peers**
- Primary recommendation of SETSS or ICT, or
- Primary recommendation of self-contained, spend 80-100% of instructional periods with general education peers

**Tier Three – 40-79% of time with general education peers**
- Primary recommendation of self-contained, spend 40-79% of instructional periods with general education peers

**Tier Four – 0-39% of time with general education peers**
- Primary recommendation of self-contained, spend 0-39% of instructional periods with general education peers

Students who start a less restrictive program at the beginning of 2018-19 count immediately, but if they start the less restrictive program mid-year, they will not contribute to the metric until the next year.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.
► Movement of Students with Disabilities to Less Restrictive Environments (District 75 Schools)

This represents the percentage of students at a District 75 school who, in a given school year, are integrated into a less restrictive environment within the same District 75 school or a different District 75 school. To be included in this metric, a student must:

- Be on the school’s October 31, 2017 audited register
- Be on any District 75 school’s October 31, 2018 audited register

Students contribute to the numerator of this metric if their class assignment on July 15, 2018 is less restrictive than the class assignment on July 15, 2019. Students are attributed by the October 2017 register because that school prepared the student for integration into the less restrictive environment.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

► Percentage of Students Integrated into Non-District 75 Environment (District 75 Schools)

This represents the percentage of students at a District 75 school who, in a given school year, are integrated or re-integrated into a non-District 75 education environment. Students contribute to the numerator of this metric if they are on the October 31, 2017 audited register of a District 75 school and are on the October 31, 2018 audited register of a non-District 75 school. The credit is attributed to the District 75 school that the student was assigned to in October 2017. The denominator for this metric includes all students on the audited register of the District 75 school in October 2017.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.
Framework Elements
Scoring and Ratings

Scoring and Rating Structure

Element ratings on the Framework Report are generated through a multi-step process:

- **Step 1:** Raw metric values are collected from the data sources.
- **Step 2:** Raw metric values are converted into metric scores, on a scale from 1.00 – 4.99.
- **Step 3:** The metric scores are combined to generate element scores.
- **Step 4:** The element scores are used to generate element ratings.

This Technical Report explains this multi-step process for the different data sources and elements. It explains how raw metric values are converted into metric scores for Quality Reviews, the NYC School Survey, chronic absenteeism (and average change in student attendance), and movement of students with disabilities to less restrictive environments. It explains how the metric scores are combined to produce element scores for the six elements—Rigorous Instruction, Collaborative Teachers, Supportive Environment, Effective School Leadership, Strong Family-Community Ties, and Trust. It then explains how ratings are determined from the element scores.

Raw Values and Metric Scores

This section explains how raw metric values are converted into metric scores for each of the different data sources in the Framework Report.

Quality Reviews

Quality Review indicator ratings are converted into metric scores as follows:

<table>
<thead>
<tr>
<th>QR Indicator Rating</th>
<th>Metric Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Well Developed</td>
<td>4.99</td>
</tr>
<tr>
<td>Proficient</td>
<td>3.50</td>
</tr>
<tr>
<td>Developing</td>
<td>2.00</td>
</tr>
<tr>
<td>Under Developed</td>
<td>1.00</td>
</tr>
</tbody>
</table>

NYC School Survey

For survey scoring, schools are categorized by a survey school type, and are compared to other schools of the same survey school type.¹

The scoring method for the NYC School Survey follows the structure of the survey,
which was organized as groups of questions relating to a measure, and groups of measures relating to an element.²

The following process is used to generate a survey element score:

(1) **Question-level percent positive** (percentage of positive responses to a question)
↓
(2) **Measure-level percent positive** (average of the question-level percent positive values for all questions within the measure)
↓
(3) **Measure score** (score based on the measure-level percent positive)
↓
(4) **Survey element score** (average of measure scores for all measures within the element)

Each step in this process is described in detail below.

(1) **Question-level percent positive**

For each question, this metric is the percent of “positive” responses (excluding “I don’t know” or missing responses from the denominator).

“Positive” responses are defined as those in the favorable half of response options (i.e., out of four possible response options, the two most favorable options are treated as positive responses).

(2) **Measure-level percent positive**

This metric is the average of the question-level percent positive values for all questions within the measure.

For example, Outreach to Parents is a measure within the element of Strong Family-Community Ties. The Outreach to Parents percent positive is the average of the question-level percent positive values on all the Outreach to Parents questions.

(3) **Measure score**

This metric converts the measure-level percent positive into a score on a 1.00-4.99 scale.

The basic idea is that survey results fairly close to the city average receive scores in the 3-bar range (3.00 – 3.99), results substantially above average receive scores in the 4-bar range (4.00 – 4.99), and results substantially below average receive scores in the 2-bar or 1-bar range (2.00 – 2.99 or 1.00 – 1.99). In addition, if a school’s measure-level percent positive is very high, it will receive a high measure score (regardless of whether the result is substantially above the citywide average).

We implement this idea by setting cut levels (measure-level percent positive) for each rating category (e.g., the 4-bar category of Exceeding Target). The school’s 1.00-4.99 measure score is based on the highest category achieved, and the distance to the next-higher cut level. The cut levels are based on the citywide average percent positive (PP) and the standard deviation (SD) among school-level results of schools. We use the “top of scoring range” and “bottom of scoring range” values to help calculate scores in the 4.00-4.99 range and the 1.00-1.99 range.

² See Appendix B for a detailed explanation of the element-measure-question survey structure.
<table>
<thead>
<tr>
<th>Rating Category</th>
<th>Percent Positive (PP) Cut Level</th>
</tr>
</thead>
<tbody>
<tr>
<td>Top of Scoring Range</td>
<td>citywide mean + 2 SD, not to exceed 100</td>
</tr>
<tr>
<td>Exceeding Target (4 bars)</td>
<td>citywide mean PP + 0.75 SD, not to exceed 95</td>
</tr>
<tr>
<td>Meeting Target (3 bars)</td>
<td>citywide mean PP – 0.5 SD, not to exceed 90</td>
</tr>
<tr>
<td>Approaching Target (2 bars)</td>
<td>citywide mean PP – 1 SD, not to exceed 85</td>
</tr>
<tr>
<td>Bottom of Scoring Range</td>
<td>citywide mean + 2 SD, not to fall below 0</td>
</tr>
</tbody>
</table>

Examples:
- If a school’s percent positive on a Framework measure is halfway between the Meeting Target and Exceeding Target cut levels, it will receive a score of 3.50 on that Framework measure.
- If a school’s percent positive on a Framework measure is one-quarter of the way between the Exceeding Target cut level and the Top of Scoring Range, it will receive a score of 4.25 on that Framework measure.

Additional Notes:
- We set separate targets for each Framework measure and for each survey school type. In other words, the citywide averages and standard deviations are calculated separately for each survey school type and for each Framework measure.
  - For example, the target cut levels for a middle school will be based on the citywide average and standard deviation among middle schools only.
- To avoid drawing significant scoring distinctions based on small PP differences, we do not allow the SD in the formula to fall below 5 points.
- The top of the scoring range is set at least 5 percentage points above the Exceeding Target level (but not to exceed 100).
- The bottom of the scoring range is set at least 5 percentage points below the Approaching Target level (but not to fall below 0).

(4) Survey element score

This metric is the average of the measure scores for all measures within the element.

For example, the Strong Family-Community Ties element contains two measures: Teacher Outreach to Parents and Parent Involvement in the School. The school’s survey element score for the Strong Family-Community Ties element is the average of the measure score for the Teacher Outreach to Parents measure and the measure score for the Parent Involvement in the School measure.

Low Response Rates and Numbers

Each element in the Framework draws primarily from questions asked of one (or two) respondent groups. If there was a low response rate or very few responses submitted by that respondent group, then the survey element score will be N/A. The following table describes these situations:
<table>
<thead>
<tr>
<th>Element</th>
<th>Survey element score will be N/A if…</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rigorous Instruction</td>
<td>• Teacher response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded.</td>
</tr>
<tr>
<td>Collaborative Teachers</td>
<td>• Teacher response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded.</td>
</tr>
<tr>
<td>Supportive Environment</td>
<td>For Elementary Schools and Early Childhood Schools:&lt;br&gt;• Teacher response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded.&lt;br&gt;For other school types:&lt;br&gt;• Student response rate was less than 30%, or&lt;br&gt;• Fewer than 5 students responded.</td>
</tr>
<tr>
<td>Effective School Leadership</td>
<td>• Teacher response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded.</td>
</tr>
<tr>
<td>Strong Family-Community Ties</td>
<td>• Average of teacher response rate and parent response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded, or&lt;br&gt;• Fewer than 5 parents responded.</td>
</tr>
<tr>
<td>Trust</td>
<td>• Average of teacher response rate and parent response rate was less than 30%, or&lt;br&gt;• Fewer than 5 teachers responded, or&lt;br&gt;• Fewer than 5 parents responded.</td>
</tr>
</tbody>
</table>

**Percentage of Students with 90% Attendance**  
*(Early Childhood, Elementary, Middle, K-8, High Schools)*

The metric score for this metric is based on how the school performed against its 2018-19 targets published in the previous year’s School Quality Reports. The first digit reflects the highest target level achieved, and the two digits after the decimal point reflect how close the school was to the next higher target. (For example, a score of 3.50 means that the school met its Meeting Target level, and was halfway between the Meeting Target level and the Exceeding Target level.)

We calculate and report this metric separately for EMS grades and HS grades. If a school spans both EMS grades and HS grades (and received metric values for both school types), we use the average of the EMS score and the HS score for Framework scoring.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

**Average Change in Student Attendance**  
*(Transfer High Schools, YABC Programs, District 75 Schools)*

The metric score for this metric is based on how the school performed against its 2018-19 targets published in the previous year’s School Quality Reports. The first
Movement of Students with Disabilities to Less Restrictive Environments

(Non-District 75 Schools)

The metric score for this metric is based on the 2018-19 targets published in the previous year's School Quality Reports. The first digit reflects the highest target level achieved, and the two digits after the decimal point reflect how close the school was to the next higher target.

We calculate and report this metric separately for EMS grades and HS grades. If a school spans both EMS grades and HS grades (and received metric values and scores for both school types), we use the average of the EMS score and the HS score for less restrictive environment for Framework scoring.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

Movement of Students with Disabilities to Less Restrictive Environments

(District 75 Schools)

The metric score for this metric is based on how the school performed against its 2018-19 targets published in the previous year’s School Quality Reports. The first digit reflects the highest target level achieved, and the two digits after the decimal point reflect how close the school was to the next higher target.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

Percentage of Students Integrated into Non-District 75 Environments

(District 75 Schools)

The metric standardized score for this metric is based on how the school performed against its 2018-19 targets published in the previous year’s School Quality Reports. The first digit reflects the highest target level achieved, and the two digits after the decimal point reflect how close the school was to the next higher target.

This metric will not be available in the June 2019 release of 2018-19 Framework results. It will be included in the Fall 2019 release of the 2018-19 School Quality Reports.
## Element Scores

### Weighted Average of Data Scores

The school’s element scores are a weighted average of the scores from the data sources within each element category. The weights depend on whether the school received a Quality Review in 2016-17 or later (with ten rated indicators) or whether the school received its most recent Quality Review in 2015-16 or earlier (with five rated indicators). If the survey response rates or numbers fall below specified thresholds, then the element score will be N/A.

The following table shows how scores from the different data sources are weighted and combined to produce the element scores:

### Weighted Combinations of Data Scores to Produce Element Scores

If average of teacher and parent response rates is at less than 30% or fewer than 5 teacher or parent responses

Element score is N/A.

**NOTE:** In the June 2019 release of the 2018-19 Framework results, the Framework element rating for Supportive Environment is N/A for all schools because we do not yet have 2018-19 data for chronic absenteeism and movement of students with disabilities to less restrictive environments. The Supportive Environment rating, incorporating those metrics, will be included in the Fall 2019 release of the 2018-19 School Quality Reports.

**Examples:**

- If the school received a finalized Quality Review Report in 2017-18, the school’s element score for Collaborative Teachers = 0.50 x survey element score for Collaborative Teachers + 0.25 x QR 4.1 metric score + 0.25 x QR 4.2 metric score.

- If the school’s most recent Quality Review was in 2014-15, the school’s element score for Collaborative Teachers = 0.50 x survey element score for Collaborative Teachers + 0.50 x QR 4.2 metric score.

- For a middle school, if the student response rate was under 30%, the school’s element score for Supportive Environment is N/A.
Missing Data

If Quality Review data is unavailable for a district school, its element scores will be N/A for all elements except for Trust.

For charter schools and YABCs, which do not receive Quality Reviews, any weight that would be applied to the Quality Review is shifted to the other data sources in the element. For example, a charter school’s element score for Rigorous Instruction is based 100% on the survey.³

If a school does not have a score for Chronic Absenteeism, Average Change in Student Attendance, or Less Restrictive Environment, the weight for that metric is generally shifted to the other data sources in the element.

If a charter school’s attendance rate is N/A, then its Supportive Environment element score and rating are N/A.

Element Ratings

Element ratings are based on the first digit of the school’s element score:

<table>
<thead>
<tr>
<th>Rating</th>
<th>Element Score</th>
</tr>
</thead>
<tbody>
<tr>
<td>Excellent (4 bars)</td>
<td>4.00 to 4.99</td>
</tr>
<tr>
<td>Good (3 bars)</td>
<td>3.00 to 3.99</td>
</tr>
<tr>
<td>Fair (2 bars)</td>
<td>2.00 to 2.99</td>
</tr>
<tr>
<td>Poor (1 bar)</td>
<td>1.00 to 1.99</td>
</tr>
</tbody>
</table>

Schools designated for phase-out or in their first year do not receive Framework element scores or ratings.

³ Because element scores based on Quality Reviews and survey results can be systematically different from element scores based on surveys only, we rescale the element scores for charter schools and YABCs in Rigorous Instruction, Collaborative Teachers, Supportive Environment, and Strong Family-Community Ties. The rescaling puts the results for charter schools and YABCs (without Quality Reviews) on the same scale as the element scores of district schools (with Quality Reviews).
Appendix A

School Types for Survey Scoring

For purposes of survey scoring, schools are categorized by school type as outlined below, and are compared to other schools of the same school type:

<table>
<thead>
<tr>
<th>School type</th>
<th>Grade range</th>
</tr>
</thead>
<tbody>
<tr>
<td>Elementary School</td>
<td>3K-5, PK-4, PK-5, PK-6, K-4, K-5, K-6, 2-5, 3-5, 4-5</td>
</tr>
<tr>
<td>Elementary / Middle School</td>
<td>3K-8, PK-7, PK-8, K-7, K-8, 3-8, 4-8</td>
</tr>
<tr>
<td>Elementary / Middle / High School</td>
<td>PK-9, PK-12, K-9, K-10, K-11, K-12, 3-12</td>
</tr>
<tr>
<td>Middle School</td>
<td>5, 5-6, 5-8, 6, 6-7, 6-8, 6-9</td>
</tr>
<tr>
<td>Middle / High School</td>
<td>5-12, 6-9, 6-10, 6-11, 6-12, 7-12</td>
</tr>
<tr>
<td>High School</td>
<td>9, 9-10, 9-11, 9-12, 10-12</td>
</tr>
<tr>

Rigorous Instruction
Questions included within each measure in the Rigorous Instruction element.

Academic Press

How much do YOU agree with the following statements?

S q4a I’m learning a lot in my classes at this school to prepare me for the next level or grade.
S q4g My classes at this school really make me think critically.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

In how many of your classes ...
S q5a are you challenged?
S q5b do your teachers ask difficult questions on tests?
S q5c do your teachers ask difficult questions in class?
S q5d do you work in small groups?
S q5e do your teachers want students to become better thinkers, not just memorize things?
1 = None, 2 = A few, 3 = Most, 4 = All

How many students in your classes...
*T q22a feel challenged?
*T q22c have to work hard to do well?
*T q22e respond to challenging test questions?
*T q22g respond to challenging questions in class?
1 = None, 2 = Some, 3 = A lot, 4 = All

* These teacher questions are included for scoring only for Elementary Schools and Early Childhood Schools, where students do not take the NYC School Survey.

Common Core shifts in literacy

For general/self-contained/literacy/science/social studies: In planning my last instructional unit, I had the resources and tools I needed to include multiple opportunities for...

T q18a building students’ knowledge through content-rich non-fiction.
T q18b reading and writing experiences grounded in evidence from text, both literary and informational.
T q18c students to interact with complex grade-level text.
T q18d students to interact with academic language.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Common Core shifts in math

For general/self-contained/math/science: In planning my last instructional unit, I had the resources and tools I needed to include multiple opportunities for...

T q19a focusing deeply on the concepts emphasized in the standards to help students build strong foundations for learning.
T q19b creating coherent progressions within the standards from previous grades to current grade so student knowledge/skills build onto previous learning as foundations for math concepts.
T q19c developing students’ conceptual understanding, procedural fluency, and their ability to apply math in context.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Course clarity

In how many of your classes, this school year, do YOU feel the following statement is true?

S q2a I learn a lot from feedback on my work.
S q2b It’s clear what I need to do to get a good grade.
S q2c The work we do in class is good preparation for our class tests.
S q2d The homework assignments help me learn the course material.
S  q2e  I know what my teacher wants me to learn in class.
   1 = None, 2 = A few, 3 = Most, 4 = All

Quality of student discussion

How many students in your classes...
T  q21a  build on each other’s ideas during class discussions?
T  q21b  use data or text references to support their ideas?
T  q21c  show that they respect each other’s ideas?
T  q21d  provide constructive feedback to their peers/teachers?
T  q21e  participate in class discussions at some point?
   1 = None, 2 = Some, 3 = A lot, 4 = All

Collaborative Teachers
Questions included within each measure in the Collaborative Teachers element.

Cultural awareness and inclusive classroom instruction

How much do YOU agree with the following statements?
S  q1f  My teachers use examples of students’ different cultures/backgrounds/families in their lessons to make
      learning more meaningful for me.
S  q1g  I see people of many races, ethnicities, cultures, and backgrounds represented in the curriculum.
S  q1h  In general, my teachers treat students from different cultures or backgrounds equally.
S  q1i  I feel that my teachers respect my culture/background.
S  q1j  In general, my teachers make their lessons relevant to my everyday life experiences.
S  q1k  In general, my teachers present positive images of people from a variety of races, ethnicities, cultures,
      and backgrounds.
   1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = I don't know

Please mark the extent to which you disagree or agree with each of the following. I am able to...
T  q2a  receive support around how to incorporate students’ cultural and linguistic backgrounds in my practice.
T  q2b  use my students’ prior knowledge to make my lessons relevant to their everyday life.
T  q2c  modify instructional activities and materials to meet the developmental needs and learning interests of
      all my students.
T  q2d  adapt instruction to ensure it represents all cultures/backgrounds positively.
T  q2e  design appropriate instruction that is matched to students' need (e.g. English language learners (ELLs)
      proficiency and students with disabilities).
T  q2f  apply my knowledge of parents' various cultural backgrounds when collaborating with them regarding
      their child’s educational progress.
T  q2g  develop appropriate Individualized Education Programs for my students with disabilities.
T  q2h  distinguish linguistic/cultural differences from learning difficulties.
   1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = I don't know

Innovation and Collective responsibility

How many teachers at this school...
T  q1a  help maintain discipline in the entire school, not just their classroom?
T  q1b  are actively trying to improve their teaching?
T  q1c  take responsibility for improving the school?
T  q1d  are eager to try new ideas?
T  q1e  feel responsible that all students learn?
   1 = None, 2 = Some, 3 = A lot, 4 = All
Peer collaboration

Please mark the extent to which you disagree or agree with each of the following. At this school...

T q9d teachers design instructional programs (e.g. lessons, units) together.
T q9e teachers make a conscious effort to coordinate their teaching with instruction at other grade levels.
T q9a the principal/school leader, teachers, and staff collaborate to make this school run effectively.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Quality of professional development

Please mark the extent to which you disagree or agree with each of the following. Overall, my professional development experiences this year have...

T Q11a been sustained and coherently focused, rather than short-term and unrelated.
T Q11b included enough time to think carefully about, try, and evaluate new ideas.
T Q11c included opportunities to work productively with colleagues in my school.
T Q11d included opportunities to work productively with teachers from other schools.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

School commitment

Please mark the extent to which you disagree or agree with each of the following.

T q4a I usually look forward to each working day at this school.
T q4b I would recommend this school to parents/guardians seeking a place for their child.
T q4h I would recommend this school to other teachers as a place to work.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Supportive Environment

Questions included within each measure in the Supportive Environment element.

Classroom behavior

In how many of your classes at this school do YOU feel most students...

S q6a listen carefully when the teacher gives directions?
S q6b follow the rules in class?
S q6c pay attention when they are supposed to?
S q6d work when they are supposed to?
S q6e behave well even when the teacher isn't watching?

1 = None, 2 = A few, 3 = Most, 4 = All

How many students in your classes...

T* q22b listen carefully when the teacher gives directions?
T* q22d follow the rules in class?
T* q22f pay attention when they are supposed to?
T* q22h do their work when they are supposed to?
T* q22i behave well in class even when the teacher isn't watching?

1 = None, 2 = Some, 3 = A lot, 4 = All

* These teacher questions are included for scoring only for Elementary Schools and Early Childhood Schools, where students do not take the NYC School Survey.

Guidance

If you are a student in grades 6-8, ANSWER this question. If you are a student in grades 9-12, SKIP this question. How much do YOU agree with the following statements?

S q9a This school provides guidance for the application process for high school.
S q9b This school educates families about the application/enrollment process for high school.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree
If you are a student in grades 9-12, ANSWER this question. How much do YOU agree with the following statements? Adults at this school (including teachers, administrators, counselors, and the principal)...

S q10a talk to me about what I plan to do after high school.
S q10b encourage me to continue my education after high school.
S q10c provide me with information about the college application process.
S q10d help me plan for how to meet my future career goals.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

If you are a student in grades 9-12, ANSWER this question. How much do YOU agree with the following statements? Adults at this school (including teachers, administrators, counselors, and the principal)...

S q11a help me consider which colleges to apply to.
S q11b show me options for how to pay for college (scholarship, grants, loans, work study programs, etc.).

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = N/A

**Peer support for academic work**

In how many of your classes at this school do YOU feel most students...

S q6f feel it is important to come to school every day?
S q6g feel it is important to pay attention in class?
S q6h think doing homework is important?
S q6i try hard to get good grades?

1 = None, 2 = A few, 3 = Most, 4 = All

**Personal attention and support**

In how many of your classes, this school year, do YOU feel the following statement is true? My teachers...

S q3a help me catch up if I am behind.
S q3b notice if I have trouble learning something.
S q3c give me specific suggestions about how I can improve my work in class.
S q3d explain things a different way if I don't understand something in class.
S q3e support me when I am upset.

1 = None, 2 = A few, 3 = Most, 4 = All

**Preventing bullying**

How often are the following things true?

S q8a At this school students harass, bully, or intimidate other students.
S q8b At this school students harass, bully, or intimidate each other because of their race, religion, ethnicity, national origin, or citizenship/immigration status.
S q8c At this school students harass, bully, or intimidate each other because of their gender, gender identity, gender expression, or sexual orientation.
S q8d At this school students harass, bully, or intimidate each other because of other differences, like disability or weight.
S q8e At this school students harass, bully, or intimidate each other online (through mobile phones, social media, email, or other forms of electronic communication).

1 = None of the time, 2 = Rarely, 3 = Some of the time, 4 = Most of the time

**Safety**

How much do YOU agree with the following statements?

S q4h Discipline is applied fairly in my school.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

How much do you agree with the following statements? I feel safe...

S q7a outside around this school.
S q7b traveling between home and this school.
S q7c in the hallways, bathrooms, locker rooms, and cafeteria of this school.
S q7d in my classes at this school.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

How much do you agree with the following statements? My students are safe...

T* q26a traveling between home and this school.
T* q26b in the hallways, bathrooms, locker rooms, and cafeteria of this school.
T* q26d in my classes(es).
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

How much do you agree with the following statement?
T* q7 Discipline is applied to students fairly in my school.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

* These teacher questions are included for scoring only for Elementary Schools and Early Childhood Schools, where students do not take the NYC School Survey.

Social-emotional

How many adults at this school...
T q23a help students develop the skills they need to complete challenging coursework despite obstacles?
T q23b tell their students they believe they can achieve high academic standards?
T q23c teach critical thinking skills to students?
T q23d teach students how to advocate for themselves?
T q23e teach students the organizational skills needed to be prepared for their next level?
T q23f recognize disruptive behavior as social-emotional learning opportunities?
T q23g teach students the skills they need to regulate their behavior (i.e. by focusing their attention, controlling their emotions, or managing their thinking, behavior, and feelings)?
T q23h have access to school-based supports to assist in behavioral/emotional escalations?
1 = None, 2 = Some, 3 = A lot, 4 = All, 5 = I don’t know

Effective School Leadership
Questions included within each measure in the Effective School Leadership element.

Inclusive leadership

Please mark the extent to which you disagree or agree with each of the following statements about this school.
P q2c The principal/school leader encourages feedback from parents/guardians and the community through regular meetings with parent/guardian and teacher leaders.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = I don’t know

Please mark the extent to which you disagree or agree with each of the following statements. The principal/school leader at this school...
P q3a is strongly committed to shared decision making.
P q3b works to create a sense of community in the school.
P q3c promotes family and community involvement in the school.
1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = I don’t know
**Instructional leadership**

Please mark the extent to which you disagree or agree with each of the following. The principal/school leader at this school...

- T q12a makes clear to the staff his or her expectations for meeting instructional goals.
- T q12b communicates a clear vision for this school.
- T q12c understands how children learn.
- T q12d sets high standards for student learning.
- T q12e participates in instructional planning with teams of teachers.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Please mark the extent to which you disagree or agree with each of the following. The principal/assistant principal(s) at this school...

- T q13a sets clear expectations for teachers about implementing what they have learned in professional development.
- T q13b carefully tracks student academic progress.
- T q13c knows what’s going on in my classroom.
- T q13d provides teachers with formative feedback to improve practice.
- T q13e provides teachers with the support to implement formative feedback.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

**Program coherence**

Please mark the extent to which you disagree or agree with each of the following. At this school...

- T q9b once we start a new program, we follow up to make sure that it’s working.
- T q9c it is clear how all of the programs offered are connected to our school’s instructional vision.
- T q9f curriculum, instruction, and learning materials are well coordinated across the different grade levels at this school.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

**Teacher influence**

Please mark the extent to which you disagree or agree with each of the following. At this school...

- T q10e the principal/school leader encourages feedback through regular meetings with parent and teacher leaders.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

How much influence do teachers have over school policy in each of the areas below?

- T q14a Hiring new professional personnel.
- T q14b Planning how discretionary school funds should be used.
- T q14c Selecting instructional materials used in classrooms.
- T q14d Developing instructional materials.
- T q14e Setting standards for student behavior.

1 = No influence, 2 = Little, 3 = A moderate amount, 4 = A great deal of influence

**Strong Family-Community Ties**

Questions included within each measure in the Strong Family-Community Ties element.

**Outreach to parents**

Please mark the extent to which you disagree or agree with each of the following. At this school...

- T q10a parents/guardians are offered opportunities to visit their child’s classroom, such as observing instruction, participating in an activity with their child, etc.
- T q10b teachers understand families’ problems and concerns.
- T q10c teachers work closely with families to meet students’ needs.
- T q10d school staff regularly communicate with parents/guardians about how parents can help students learn.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree
Please mark the extent to which you disagree or agree with each of the following statements about this school.

- **P q1a** School staff regularly communicate with me about how I can help my child learn.
- **P q1b** My child’s school offers me opportunities to visit my child’s classroom, such as observing instruction, participating in an activity with my child, etc.
- **P q1c** My child’s school offers me the opportunity to volunteer time to support this school (for example, helping in classrooms, helping with school-wide events, etc.)
- **P q1d** I am greeted warmly when I call or visit the school.
- **P q1e** Teachers work closely with me to meet my child’s needs.
- **P q1f** I feel well-informed by the communications I receive from my child’s school.
- **P q1i** My child’s school communicates with me in a language and in a way that I can understand.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

### Parent involvement in school

**Since the beginning of the school year, how often have you...**

- **P q4a** communicated with your child’s teacher about your child’s performance?
- **P q4b** seen your child’s projects, artwork, homework, tests, or quizzes?

1 = Never, 2 = Rarely, 3 = Sometimes, 4 = Often

**During the school year, how likely are you to...**

- **P q6a** attend a general school meeting or school event (open house, back to school night, play, dance, sports event, or science fair)?
- **P q6b** go to a regularly scheduled parent-teacher conference with your child’s teacher?

1 = Very unlikely, 2 = Somewhat unlikely, 3 = Somewhat likely, 4 = Very likely

### Trust

Questions included within each measure in the Trust element.

#### Parent-principal trust

Please mark the extent to which you disagree or agree with each of the following statements about this school.

- **P q1j** I feel respected by my child’s principal/school leader.
- **P q1k** I trust the principal/school leader at his or her word (to do what he or she says that he or she will do).
- **P q1l** The principal/school leader is an effective manager who makes the school run smoothly.
- **P q2b** The principal/school leader at this school works hard to build trusting relationships with parents/guardians like me.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

#### Parent-teacher trust

Please mark the extent to which you disagree or agree with each of the following statements about this school.

- **P q1g** I feel respected by my child’s teachers.
- **P q1h** Staff at this school work hard to build trusting relationships with parents/guardians like me.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Please mark the extent to which you disagree or agree with each of the following statements about this school.

- **P q2a** Teachers and parents/guardians think of each other as partners in educating children.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree, 5 = I don’t know
Student-teacher trust

How much do YOU agree with the following statements?

S q4b There is at least one adult in the school that I can confide in.
S q4c My teachers will always listen to students’ ideas.
S q4d My teachers always do what they say they will do.
S q4e My teachers treat me with respect.
S q4f When my teachers tell me not to do something, I know they have a good reason.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Teacher-principal trust

Please mark the extent to which you disagree or agree with each of the following.

T q5a I feel respected by the principal/school leader at this school.
T q5b The principal/school leader at this school is an effective manager who makes the school run smoothly.
T q5c The principal/school leader has confidence in the expertise of the teachers at this school.
T q5d I trust the principal/school leader at his or her word (to do what he or she says that he or she will do).
T q5e At this school, it’s OK to discuss feelings, worries, and frustrations with the principal/school leader.
T q5f The principal/school leader takes a personal interest in the professional development of teachers.
T q5g The principal/school leader looks out for the personal welfare of the staff members.
T q5h The principal/school leader places the needs of children ahead of personal interests.
T q5i The principal and assistant principal function as a cohesive unit.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree

Teacher-teacher trust

Please mark the extent to which you disagree or agree with each of the following.

T q4c Teachers in this school trust each other.
T q4d It’s OK in this school to discuss feelings, worries, and frustrations with other teachers.
T q4e Teachers respect other teachers who take the lead in school improvement efforts.
T q4f I feel respected by other teachers at this school.
T q4g Teachers at this school respect their colleagues’ specific expertise.

1 = Strongly disagree, 2 = Disagree, 3 = Agree, 4 = Strongly agree
Frequently Asked Questions

**Are there any changes to the content of this year’s surveys?**

Like last year, the 2018-19 version of the NYC School Survey is aligned to the six elements of the Framework for Great Schools: Rigorous Instruction, Collaborative Teachers, Supportive Environment, Effective School Leadership, Strong Family-Community Ties, and Trust. Based on analysis of last year’s results and participant feedback, the NYCDOE has made minor revisions to all three versions of the survey (parent/guardian, teacher, and student) this year.

The NYCDOE removed questions that did not distinguish well between schools or that respondents reported they did not have the information or insight to answer. Questions were also simplified and reworded to increase clarity and encourage more differentiating feedback from respondents. Finally, the NYCDOE added questions based on suggestions from various stakeholders and to improve the strength of existing measures.

**Are schools penalized for low response rates?**

While high participation rates help to provide broad and representative information about a school, response rates are reported for informational purposes and schools are not penalized for low response rates. If survey response rates or number of responses are very low, the section rating may be N/A. Further, survey results will be suppressed if certain minimum numbers of responses are not received for a particular respondent group.

**How are response rates calculated?**

The response rate is the number of surveys submitted divided by the number of people in the survey population.

- **Student**: The student survey population represents all students in the school who are enrolled in grades 6 through 12.

- **Parent**: The parent survey population represents all parents of students in the school. Parents with more than one child in the same school are counted only once in the parent survey population. Parents with children in more than one school are counted once in each of those schools, and are invited to fill out a survey for each school.

- **Teacher**: District: For district schools, the teacher survey population represents all full-time teachers and guidance counselors in the school.
  
  Charter: Prior to the start of survey administration, charter schools are asked to submit a roster listing all staff members eligible to participate in the survey. Charter schools that submit a roster then...
have the opportunity to update their roster after the close of survey administration to remove any teachers that are no longer employed by their school. The teacher survey population for charter schools is determined using this information. If a charter school does not submit a roster prior to the start of survey administration, the teacher survey population is estimated based on student enrollment.

Some survey questions do not fall within the list of elements and measures in the Appendix. Are these questions counted?

Survey questions that do not fall within the list of elements and measures in the Appendix do not contribute to the percentage of positive responses for each element. These questions collect important information about a variety of topics that help schools leaders and other stakeholders better understand schools’ strengths and target areas for improvement. These questions are included in the “Additional Survey Questions” section of the School Quality Guide.

The sum of response percentages for one survey question does not equal 100%. Why?

For purposes of display, percentages are rounded to the second decimal place. As a result, the sum of the displayed response percentages may not appear to add up to 100% for all questions. For example, if the percentages used for calculation for a question are 49.5% Strongly Agree and 50.5% Agree, they are displayed in rounded form as 50% and 51%. Likewise, if the true percentages are $33\frac{1}{3}\%$ Strongly Agree, $33\frac{1}{3}\%$ Agree, and $33\frac{1}{3}\%$ and Disagree, they are displayed as 33%, 33%, and 33%.

How are blank responses handled?

Survey questions that do not fall within the list of elements and measures in the Appendix do not contribute to the percentage of positive responses for each element. These questions collect important information about a variety of topics that help schools leaders and other stakeholders better understand schools’ strengths and target areas for improvement. These questions can be found in the “Additional Survey Questions” section of the School Quality Guide.

How are multiple responses treated on the NYC School Survey Report?

Answer choices of respondents who selected multiple answer choices to questions that did not indicate “check all that apply” are not reported and are not included in percentage of positive responses.
